

Goodrich Corporation

Hearing Board Case #6253-1

Facility ID No. 11998

Interim Variance Conditions

March 7, 2024

1. Petitioner shall ensure the flare is operated at not less than 1400 degrees Fahrenheit in accordance with Condition 5 of Permit No. G30825.
2. Petitioner shall notify the South Coast AQMD by email to Air Quality Inspector Andrea Barlow (abarlow@aqmd.gov) each time the flare is in active use (defined as: when waste gas from one or more furnaces is flowing to the flare), during the variance period.
3. Petitioner shall maintain a monthly operating log beginning with March 2024 for active use of the flare and shall send the records to South Coast AQMD by email to Air Quality Inspector Andrea Barlow (abarlow@aqmd.gov) on the first Tuesday of each month starting in April 2024. The operating log shall list active flare operations in the following areas:
 - a. Date and hours of operation;
 - b. Temperature of the exiting flue gas for the duration of the active operating period(s).
 - c. Gas flow rate in scfh to the flare.
4. Petitioner shall maintain all alarms for the flare, furnaces, valves, and associated equipment in active status, that is operational and ready to indicate equipment failure or malfunction when triggered. Alarms may be deactivated or bypassed during shutdown/maintenance periods. After these events, the alarms must be returned to active status prior to start-up of the equipment.
5. Petitioner shall calculate, record, and report all excess emissions during the variance period, and pay appropriate excess emission fees to the Clerk of the Board by
_____.
