<b>Community organization</b> Organization name: Organization address:	<b>Agency, school, university or hospital</b> Entity name: Entity address:
<b>Business representative</b> Business name: Business address:	<b>Representative from an elected official's office</b> Name of representative: IVANA RIZVI Name of elected official: Assemblymember Ed Jurisdiction: Assembly District 47-San Berna
<b>Active resident (not representing a community organization or a business)</b> Resident name: Primary residence address (or nearest intersection):	

**Why are you interested in becoming a member of the AB 617 steering committee in the selected community?**

Assemblymember Eloise Reyes is an advocate for clear air and its affect in the 47th District. She was instrumental in the passage of AB 617 as a co-author and strongly advocated for the selection of the San Bernardino/Muscoy area. Our office wants to assist in providing the necessary support and resources that are needed to have this program succeed.

In addition our office has been working with the Muscoy community to provide sidewalks for safety for the students. Transportation and air quality are interconnected. As we promote safe routes to school, we need to make sure that the air they breath is clean.

**How would you support outreach to ensure all voices in the community are heard?**

As a field representative, I am actively engaged with the community. I have built relationship with the community and have contacts with community leaders, business leaders, school districts, PTA's, and more.

**Goals of the AB 617 Community Steering Committee**

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

- Provide input to define community boundaries;
- Community concerns about emission sources to develop a shared understanding of the community's air pollution challenge;
- Proposed strategies for the community air monitoring and emissions reduction programs;
- Approaches for additional community outreach; and
- Metrics to track progress.

<b>Community organization</b> Organization name: Organization address:	<b>Agency, school, university or hospital</b> Entity name: Cal State San Bernardino Entity address: 5500 Univ. Pkwy, San Bern
<b>Business representative</b> Business name: Business address:	<b>Representative from an elected official's office</b> Name of representative: Name of elected official: Jurisdiction:
<b>Active resident (not representing a community organization or a business)</b> Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As someone who has studied air quality in school, at a research institution and at CSUSB, I know the importance of reducing contaminants. California has led the way in improving air quality but novel approaches like the AB 617 community involvement are needed to continue to improve. I would like to help out this effort specifically in helping to determine what locations are needed for sampling.

How would you support outreach to ensure all voices in the community are heard?

At CSUSB, I teach general and environmental chemistry courses. These courses have a broad range of students from San Bernardino and the surrounding community. I will relate work being down in by AQMD and reach out to students and faculty for any areas of concern.

### Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Committee members will be responsible for discussing a variety of topics including but not limited to:

<b>Community organization</b> Organization name: Organization address:	<b>Agency, school, university or hospital</b> Entity name: CSUSB Leonard Transportation Center Entity address: 5500 University Pkwy, COE-214 San Bernardino, CA 92407
<b>Business representative</b> Business name: Business address:	<b>Representative from an elected official's office</b> Name of representative: Name of elected official: Jurisdiction:
<b>Active resident (not representing a community organization or a business)</b> Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

I am interested in becoming part of the steering committee because I both reside and work in the City of San Bernardino. I have lived the experiences of dealing with bad air quality and I believe I have the skills and qualifications (CSUSB MPA graduate and Research Technician at CSUSB) necessary to develop solutions.

How would you support outreach to ensure all voices in the community are heard?

I would take the time to listen to everybody in the community willing to talk about air pollution especially in regards to the west-side of San Bernardino where I reside. Also I would make sure to develop materials that can be easily deciphered by community members so the committee could be as transparent as possible. I would look towards social media to take comments and questions from all community members. I want opportunities for everyone to voice their concerns.

### Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. <b>Active resident (not representing a community organization or a business)</b> Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Interested in giving input to the group from the research I have done as part of the ENRRICH project. Analyzing the data and publishing from the study I have identified a number of areas in need of significant support, especially for children. I also have an ongoing research investigation looking into the impact of freight railyards across the state of California and identification of opportunities for promoting health in vulnerable populations.

How would you support outreach to ensure all voices in the community are heard?

Previous I have convened focus groups within the community and published findings to not only support the needs of the community but ensure they have a voice in ongoing support. I also use educational theatre (<http://educationaltheatre.org/>) as a forum for engaging both adults and children. It provides an excellent forum for exchange of information.

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

Transit is an important part of the conversation for improving air quality & improving quality of life. We are working to reduce our emissions as well as attracting more people to ride transit.

How would you support outreach to ensure all voices in the community are heard? to reduce vehicle emissions.

We already do extensive outreach to our transit passengers through on-board surveys, transit center outreach, and social media. We could help cross-promote/do outreach related to this effort.

Goals of the AB 617 Community Steering Committee

<b>Business representative</b> Business name: Business address:	<b>Representative from an elected official's office</b> Name of representative: Name of elected official: Jurisdiction:
<b>Active resident (not representing a community organization or a business)</b> Resident name: Primary residence address (or nearest intersection):	

Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As the Planning Manager for the County, I have been working in over 70 communities for the past five years planning and facilitating public engagement for the Renewable Energy and Conservation Element, Countywide Plan and Community Planning Continuum. I believe my experience will be valuable to the Committee and process.

How would you support outreach to ensure all voices in the community are heard?

It is important to understand each community and how they get their information so you can ensure they receive notices. Also, the location and time of the meeting is important to ensure the community can attend. In San Bernardino and Muscoy, it will be important to consider families and children when scheduling meetings and consider having a room for children to have their own activities. The type of input also needs to be designed so it is easy to understand and provide comments. As well, translators and bilingual notices will be necessary.

### Goals of the AB 617 Community Steering Committee

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions. Why are you interested in becoming a member of the AB 617 steering committee in the selected community?

As a lifelong San Bernardino County resident, an avid runner, and as an employee of an agency with a focus on reducing congestion in our community this topic is very important and personal. It would be an honor to participate on a committee that will not only discuss the issues but look towards solutions to address them.

How would you support outreach to ensure all voices in the community are heard?

As the Director of Legislative and Public Affairs for the San Bernardino County Transportation Authority I spend a great deal of my time working with policy makers at the local, state a federal levels. Additionally, our agency has a public facing responsibility sharing information to the public about transit, ridesharing, and active transportation programs. I can use these platforms to assist the committee's efforts.

**Goals of the AB 617 Community Steering Committee**

The purpose of the community steering committee is to support active community involvement and collaboration in the AB 617 implementation process by providing a forum for identifying air pollution issues in the community and potential solutions.
